

# Sprint 2 Plan

Product: First Ascent  
Sprint Start Date: 10/21/2018  
Sprint End Date: 10/28/18  
Revision Number: 1  
Revision Date: 10/23/18

**Goal:** Get the basic framework of the project up and running (homepage / posting)

## User Story 1 - 6 Points

As a user, I want to post new rock climbs/routes I find so that others can also find them

- Task 1. [5] Create a home page, upload page, and view post page
- Task 2. [2] Add CSS to the completed web pages
- Task 3. [5] Connect the database to the website

## User Story 2 - 2 Points

As a developer, I want to be comfortable with using Google Maps API to pin locations and show the map

- Task 4. [2] Include the Google Maps API into the post page

## User Story 3 - 2 Points

As a user, I want my posts to include location and directions

- Task 5. [1] Add a directions / location box to the post page
- Task 6. [1] Use GPS coords provided by the user to display a boulder's location with Google Maps

## Team Roles

Ethan Warkentin: Developer, Product Owner  
Celine: Developer, Scrum Master  
Minh Nguyen: Developer  
Scott Tan: Back-end Developer

## Initial Task Assignments
