

Sprint 1 Report

Product: First Ascent

Team Name : FirstAscent

Date : 10/21/2018

Actions To Stop Doing

Actions to Start Doing

- Start working on the front end aspect of the sign-up / log-in page. Make the UI prettier to view for visitors to the site. We don't want the site to appear as a basic and unattractive webpage. We want the site to attract users into using the site.

Actions To Continue Doing

- Learning about the new technology as we progress through our project. The team should continue to learn how to work with React.js, Javascript, HTML, and firebase so that we can improve our productivity in adding features to our website.

Working Completed / Not-Completed

- As a developer, I want to be comfortable with using Firebase to store data
 - Task 1. [2] Learn to use Firebase for storing data and authentication.
Firebase authentication is working. Can store and receive data.
- As a developer, I want to be more familiar with React.js, JavaScript, HTML, CSS, JQuery for developing our web app
 - Task 2. [1] Learn to use React.js. We have a basic understanding of this tech.
 - Task 3. [1] Learn JavaScript, HTML. We have a basic understanding of this tech.
 - Also, we all completed the firebase / react tutorial to understand firebase and react more.
- As a user, I want to sign-up/sign-in to the app
 - Task 5. [3] Create basic login page. Complete. Users can sign-up/sign-in/sign-out
 - Task 6. [5] Set up Firebase authentication. Complete. Sign-in email and password authenticated by Firebase
