<u>FirstAscent Installation Guide</u>

1) Install latest version of node.js
2) Clone repository
   $ git clone https://github.com/ewarkent/FirstAscent
3) Create react environment with the following command in your project directory:
   $ npm install
4) Download the file uploader and form validator libraries
   $ npm i react-firebase-file-uploader
   $ npm install validator
5) Launch the project with the following command
   $ npm start

The Firebase and Google Maps API keys have been omitted for security reasons. Please contact First Ascent Team for access.
